

**Education**

**Masters of Architecture** 1999, Montana State University, Bozeman, MT  
**Bachelors of Art in Environmental Design** 1999, Montana State University, Bozeman, MT  
**A.S. Architectural Engineering** 1994, Norwalk Community Technical College, Norwalk, CT  
**Construction Management Certificate** 2010, University of Washington, Seattle, WA  
**Sustainable Building Advisor Certificate** 2010, Seattle Central Comm. College, Seattle, WA  
**Low Impact Development Certificate** 2011, University of Washington, Seattle, WA

**Qualifications**

Have gained an understanding of the value of teamwork, the importance of communication and outstanding organizational skills through my work experiences and my history with the National Guard; coaching high school soccer; volunteering and leading activities for Habitat for Humanity. Sound knowledge of AutoCad, Sketch-Up and office related programs. Ability to sketch and communicate with clients and contractors. I consider myself a self-learner and self-motivator who is willing to learn on his own time and is not satisfied until I have exhausted the problem at hand. Recently I have reeducated myself by completing three certificate programs in Construction Management, Low Impact Development and a Sustainable Building Advisor program in which I followed up with the certification exam.

**Work Related**

- 2010-Current**     **Schultz Miller Construction, Inc. Seattle, WA**
